KINDERGARTEN PLAN:
1. ENTRANCE
2. CLASSROOMS
3. MULTIPURPOSE
4. LIBRARY
5. TEACHER’S ROOM
6. TOILETS/SHOWERS
7. DINING SPACE
8. KITCHEN
9. STORE

KINDERGARTEN-FLOOR PLAN
The kindergarten for children between the age of 3 - 6 years funded by the Ministry of Human Resources Development, Government of India, has been designed to create ideal learning through play spaces. The class rooms have load bearing walls which are made in Earth and left with a natural finish.

But the lintel which a shading device cum beam to support the tile roofs are all painted in different colours to enable the children to identify with their group space. The roof is made of burnt clay tiles on a under structure of prefabricated R.C.C. beams.
KINDERGARTEN SECTION:
1. RAMMED EARTH FOUNDATION
2. COMPRESSED EARTH BLOCKS WALLS
3. PRE-FAB SILLS & BENCHES IN RCC
4. RING BEAM/GUTTER/SUN SHADE
5. TILE ROOF ON PRE-FAB RCC UNDERSTRUCTURE
The roof has special glass tiles for an interesting play of light as well as ventilator tiles to allow hot air to escape.

The colour of the rooms are in relation to its location in terms of the movement of the sun. Besides the classrooms, there are a number of multipurpose rooms for craft, theatre and music which are open to the gardens, but roofed to provide shade. The transitional spaces are shaded by creepers and plants. The recessed windows provide sun and rain protection as well as cozy window seats for the children.
